PROGRESSION SERIES SMART UMBRELLA

PROGRESSION SERIES SMART UMBRELLA

THE FUTURE OF SHADE ELEVATED

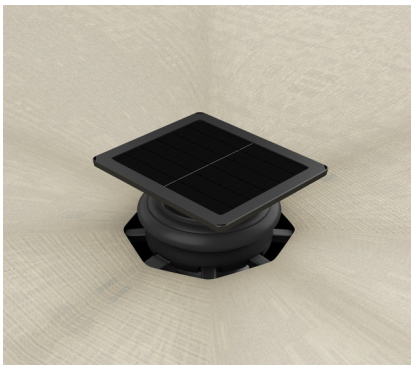

Equipped with our most advanced features yet, Above's Progression Cantilever Smart Umbrellas combine cutting-edge automation and intelligent controls to elevate your outdoor comfort and convenience. Perfect for shading dining areas, patios, and compact outdoor seating spaces, these cantilever umbrellas set a new standard in design and functionality.

Effortless Style and Sun Protection

Our cantilever design, with its offset pole, ensures a roomy and unobstructed environment, effortlessly combining style and functionality. Designed to remain discreet around people and furniture, the canopies offer easy tilting and rotation, enabling users to find the perfect shade angle at any time of day. Enhanced by Above's innovative features, the Progression Cantilever umbrellas provide a versatile and sophisticated shading solution for a variety of outdoor spaces.

QUICKSWAP™ SERIES PATIO UMBRELLA

QUICKSWAP™ SERIES PATIO UMBRELLA

INSTANT SHADE, ANYTIME YOU NEED IT

The Quickswap™ umbrella offers an affordable and stylish solution to common umbrella challenges. Nature, weather, and accidents are beyond our control, and even the toughest umbrellas can fall victim to these forces. Often, it's a single broken rib that renders an entire umbrella useless. But what if you didn't have to replace the whole umbrella? With Quickswap™, you can effortlessly replace a broken rib with a few simple steps, extending the life of your umbrella and letting you enjoy life's pleasures without interruption. That's the innovation behind the Quickswap™ umbrella.

DETACHABLE RIBS

Easily replace broken ribs by replacing a single rib instead of the whole thing

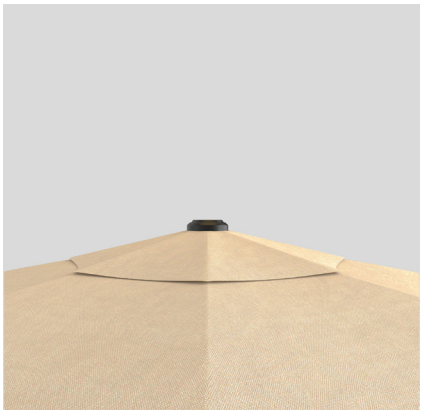

EFFORTLESS TILT ADJUSTMENT

Enjoy seamless angle adjustments with the simple push of a button

BUILT-IN CRANK CONTROLS

Letting you raise, lower, and reposition your canopies with ease

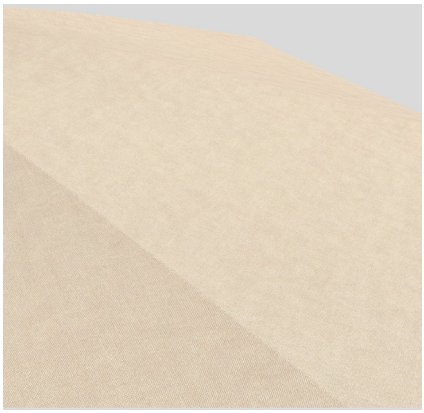

WIND VENT

A wind vent on top helps prevent your umbrella from being blown away

STURDY STEEL FRAME

Providing a reliable structure that can withstand various weather conditions

POLYESTER FABRIC

Made with durable, stretchable and weather resistant polyester canvas
